Munich IBX® Data Center

Equinix Munich Data Centers

Equinix is the world's digital infrastructure company®. At Equinix, digital leaders bring together all the right places, partners and possibilities to create the foundational infrastructure they need to succeed. Our Munich data centers are business hubs for 115+ companies. Our Munich customers can choose from a broad range of network services from 35+ providers. They can also interconnect directly to customers and partners in their digital supply chain. The Equinix metro Munich International Business Exchange™ (IBX®) data centers consist of three buildings with approximately 96,875 square feet (9000+ square meters) of colocation space.

Our Munich data centers are located in one of Germany's most important manufacturing, healthcare and IT industry hubs. The region is also home to thriving automotive, internet, digital media and electronics industries. Companies in these sectors rely on the Equinix colocation facilities in Munich to make highly reliable, low-latency connections with business partners and customers locally, nationally, and internationally.

Munich Data Centers Benefits

- Ideal location for hosting cloud services and data in compliance with Germany's data privacy laws
- High density of automotive manufacturers and technology industries, including internet, digital media and electronics companies
- Offers broad choice of networks for peering, transit and cloud providers to ensure an optimal mix of services and competitive pricing through cross connection
- Offers highly secure and scalable colocation space with remote support and technical monitoring
- Offers business continuity/disaster recovery solutions on-site
- Hosts centralized mobile applications serving the whole European market for a large U.S.-based provider
- Covered by 100% renewable energy
